

Sub  
B3  
information identification code stored in the storage step to the external device.

24. A computer-readable storage medium storing a program for implementing a method of controlling a portable terminal apparatus, the program comprising:

program code of a display step of displaying received information;

program code of an extraction step of extracting an information identification code from the information displayed in the display step; and

program code of a storage step of storing the information identification code extracted in the extraction step.--

REMARKS

Original Claims 1-5 have been cancelled, without prejudice or disclaimer of the subject matter presented therein. New Claims 6-24 have been added to provide Applicants with a more complete scope of protection. Claims 6, 14, and 21-24 are in independent form.

A Request for Approval of Drawing Changes has been submitted herewith, in which certain clerical and/or

typographical errors in the drawings are corrected. Approval of the Request is respectfully requested.

An early and favorable examination on the merits is respectfully requested.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,

*Paul P. Diame*
